

Dear Business Development,

Yes the study went very smoothly. I was quite pleased to see that the pathologist recommended no read-down, and the Study Director and I agreed.

The only hiccup was on our end—we didn't settle on a contract lab for serology testing until well into the study and there have been a few amendments needed to sort that out. We are just about through that stage though.

We did receive a letter from BARDA indicating that we are in the competitive range for the RFP we submitted last Sept. We will let you know if we need more info to support the final proposal.
